

REMARKS

Applicants respectfully request the allowed claims 42 and 49 be amended from “interleukin- α ” and “interleukin- γ ” to “interferon- α ” and “interferon- γ ,” respectively. The amendments merely correct obvious typographic mistakes. The mistakes were inadvertently introduced into the response dated October 30, 2007, and constitute obvious typographic errors especially in light of prior lists of claims filed before October 30, 2007 and the specification as originally filed. For example, claims 42 and 49 in the Responses dated June 11, 2007 and February 7, 2007, and the original specification on page 34, line 4, all clearly recite the cytokine species as “interferon- α ” and “interferon- γ .”

Thus, these Amendments do not introduce new matter nor do they require new searches. Applicants therefore respectfully request entry of the amendments, despite the fact that the application has been allowed, since the requested amendments merely correct formal matters in the claims without changing the scope thereof.

CONCLUSION

Applicants respectively submit that in view of the remarks above, all of the pending claims are in condition for allowance. A most favorable decision is earnestly solicited. Should the Examiner have any questions, the Examiner is encouraged to call the undersigned at 312-913-0001.

Respectfully submitted,

Date: May 5, 2008
